HORATIO HANLEY

November 10, 2023

Dear Hiring Manager,

I am writing to you in reference to your ad on LinkedIn for the Junior Frontend Engineer position at SkyRecruitment.

I am returning to the work field after a lengthy hiatus needed to recoup and heal from a previous work injury that has left me partially disabled. I am a recent graduate from TECH I.S. Full Stack Web Development online bootcamp, where I learned the necessary skills needed for Frontend and Backend Web Development such as HTML, CSS, JavaScript, GitHub, ReactJS, Python and Django.

Although my previous experiences are not in the tech field, I feel confident that from my education and qualifications I possess the skills needed that you look for in a potential employee. As a driver at Blue Jay Construction I was responsible for making purchases for upcoming projects and delivering them to the contractors in a timely manner and intact. I learned several transferable skills in this position such as time management to meet deadlines and interpersonal skills that are needed when meeting people from different walks of life. I was able to utilize and put these into effect as I attended the TECH I.S. online course and while completing my projects.

I look forward to meeting with you to further discuss how my skills would match the needs of SkyRecruitment for this position. Enclosed is a copy of my resume, if any additional information is needed feel free to contact me at your earliest convenience. Thank you in advance for your consideration.

Sincerely,

Horatio Hanley
